#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☒ Responsive to communication(s) filed on 10 February 2004.
- 2a) ☐ This action is **FINAL**.                      2b) ☒ This action is non-final.

## **Detailed Action**

### ***Claim Objections***

1. Claim 1 is objected to because of the following informalities: it does not end in a period.  
Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear what the other methods of making the device more portable are.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for

Art Unit: 3643

patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 6,202,868 to Murray.

Referring to claim 1, Murray discloses a portable deer dressing and skinning device, that attaches to a truck or ATV trailer hitch for easy field dressing and skinning a deer at the kill site, including a frame/body – at 1-3, a hitch pin – see proximate 18 and 25 in figure 2, a winch – at 8, wire rope sheaves – at 5-6, galvanized wire – at 13, snap hooks and thimbles – at 9,15, a gambrel – at 19 and a lanyard – at any portion of the wire 13 as seen in figure 2.

Referring to claim 2, Murray discloses the device is foldable, collapsible and telescoping – see for example figure 1.

Claims 1-2 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent No. 6,626,748 to Homer, Sr.

Referring to claim 1, Homer, Sr. discloses a portable deer dressing and skinning device, that attaches to a truck or ATV for easy field dressing and skinning a deer at the kill site, including a frame/body – at 30-32, a hitch pin – see proximate 40-42 in figure 2, a winch – at 22, wire rope sheaves – at 34,54, galvanized wire – at 38, snap hooks and thimbles – at 58,59,82,80, a gambrel – at 78-79 and a lanyard – at 38 in figure 2.

Referring to claim 2, Homer, Sr. discloses the device is foldable, collapsible and telescoping – see for example at 30-32 and 40-42 in figure 2.

*Conclusion*

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The following patents are cited to further show the state of the art with respect to game dressing/hoisting devices in general:

U.S. Pat. No. 4,806,063 to York – shows game hoist

U.S. Pat. No. 5,211,601 to Cope – shows game hoist

U.S. Pat. No. 5,562,534 to McGough – shows game hoist

U.S. Pat. No. 5,662,451 to Muzzi et al. – shows game hoist

U.S. Pat. No. 5,788,095 to Watson – shows game hoist

U.S. Pat. No. 5,791,858 to Sasser – shows game hoist

U.S. Pat. No. 5,820,455 to Breedlove – shows game hoist

U.S. Pat. No. 6,045,442 to Bounds – shows game hoist

U.S. Pat. No. 6,138,991 to Myers, Jr. – shows game hoist on ATV

U.S. Pat. No. 6,155,771 to Montz – shows game hoist on ATV

U.S. Pat. No. 6,250,483 to Frommer – shows game hoist

U.S. Pat. No. 6,695,688 to Owen et al. – shows game hoist

U.S. Pat. No. 6,705,821 to Phillips et al. – shows game host on trailer hitch

5/31/05

It appears that the applicant in this application is a *pro se* applicant (an inventor filing the application alone without the benefit of a Patent Attorney or Agent). Applicant may not be aware of the preferred methods of ensuring timely filing of responses to communications from the Office and may wish to consider using the Certificate of Mailing or the Certificate of Transmission procedures outlined below.

#### **CERTIFICATE OF MAILING**

To ensure that the Applicant's mailed response is considered timely filed, it is advisable to include a "certificate of mailing" on at least one page (preferably on the first page) of the response. This "certificate" should consist of the following statement:

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to: "Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450" on (date).

(Typed or printed name of the person signing this certificate)

(signature)

#### **CERTIFICATE OF TRANSMISSION**

Alternatively, if applicant wishes to respond by facsimile rather than by mail, another method to ensure that the Applicant's response is considered timely filed, is to include a "certificate of transmission" on at least one page (preferably on the first page) of the response. This method should be used by foreign applicants without access to the U.S. Postal Service. This "certificate" should consist of the following statement:

I hereby certify that this correspondence is being facsimile transmitted to the United States Patent and Trademark Office, Fax No. (703)\_\_\_\_-\_\_\_\_ on (date).

(Typed or printed name of the person signing this certificate)

(signature)

These "Certificates" may appear anywhere on the page, and may be handwritten or typed. They must be signed, and the date must be the actual date on which it is mailed or transmitted. For the purpose of calculating extensions of time, the date shown on the certificate will be construed as the date on which the paper was received by the Office, regardless of the date the U.S. Postal Service actually delivers the response, or the fax is "date-stamped" in. In this way, postal or transmission delays do not affect the extension-of-time fee.

In the event that a communication is not received by the Office, applicant's submission of a copy of the previously mailed or transmitted correspondence showing the **originally** signed Certificate of Mailing or Transmission statement thereon, along with a statement from the person signing the statement which attests to the timely mailing or transmitting of the correspondence, would be sufficient evidence to entitle the applicant to the mailing or transmission date of the correspondence as listed on the Certificate of Mailing or Transmission, respectively.

**NOTICE TO APPLICANT:** In the case of lost or late responses the use of other "receipt producing" forms of mailing a correspondence to the Patent Office, such as Certified Mail, or a private shipper such as FedEx, **WILL NOT** result in the applicant getting the benefit of the mailing date on such receipts. These receipts are not considered to be acceptable evidence since there is nothing to "tie-in" the receipt with the particular document allegedly submitted.
